

TRENTINO FISHING CATCH & RELEASE

FISHING REGULATIONS 2013

FISHING AREAS

Catch & Release fishing (where fish are returned to the water) may be practised in all the rivers and lakes taking part in the scheme (attached is a map of all the Trentino Fishing Catch & Release areas); no fishing areas, biotopes and prohibited areas are excluded at all times. Fly-fishing only is permitted in the areas marked No-Kill; spin fishing is prohibited.

AREAS FOR WHICH BOOKING IS REQUIRED

Permits for areas for which booking is required (indicated on the attached map) are valid only if the actual fishing day has been booked (either on-line or by other procedure)

PERMITTED FISHING TECHNIQUES

Fly-fishing is permitted only with:

- Mouse-tail flies fitted with maximum 2 barbless imitations (with the approval of Autonomous Province of Trento). In October only mouse tails fitted with maximum 1 imitation are permitted.

Spin fishing is permitted only with:

- rotating, undulating and minnow lures fitted with a single barbless hook. All silicon lures are prohibited.

Wading is prohibited before May.

All other types of bait and fishing techniques are strictly prohibited.

CATCHES

It is prohibited to keep any species caught. All fish caught in all areas must be carefully returned to the water immediately. Fish must not be completely removed from the water for any reason whatsoever and must in all cases be unhooked as quickly and as carefully as possible and returned to freedom in the shortest time possible.

FISHING DAYS

Fishing is permitted on all the days "Catch & Release" permits are valid for, with the exception of fishing areas that are closed on certain days. These days are stated on the permit.

SEASON OPENING AND CLOSING DATES

Opens 1st Sunday in March

Closes 30 September

For grayling only: closes 31 October

LOCATING AREAS

See charts and map

CATCH & RELEASE PERMIT PRICES

1 day: € 22,00

2 consecutive days: € 33,00

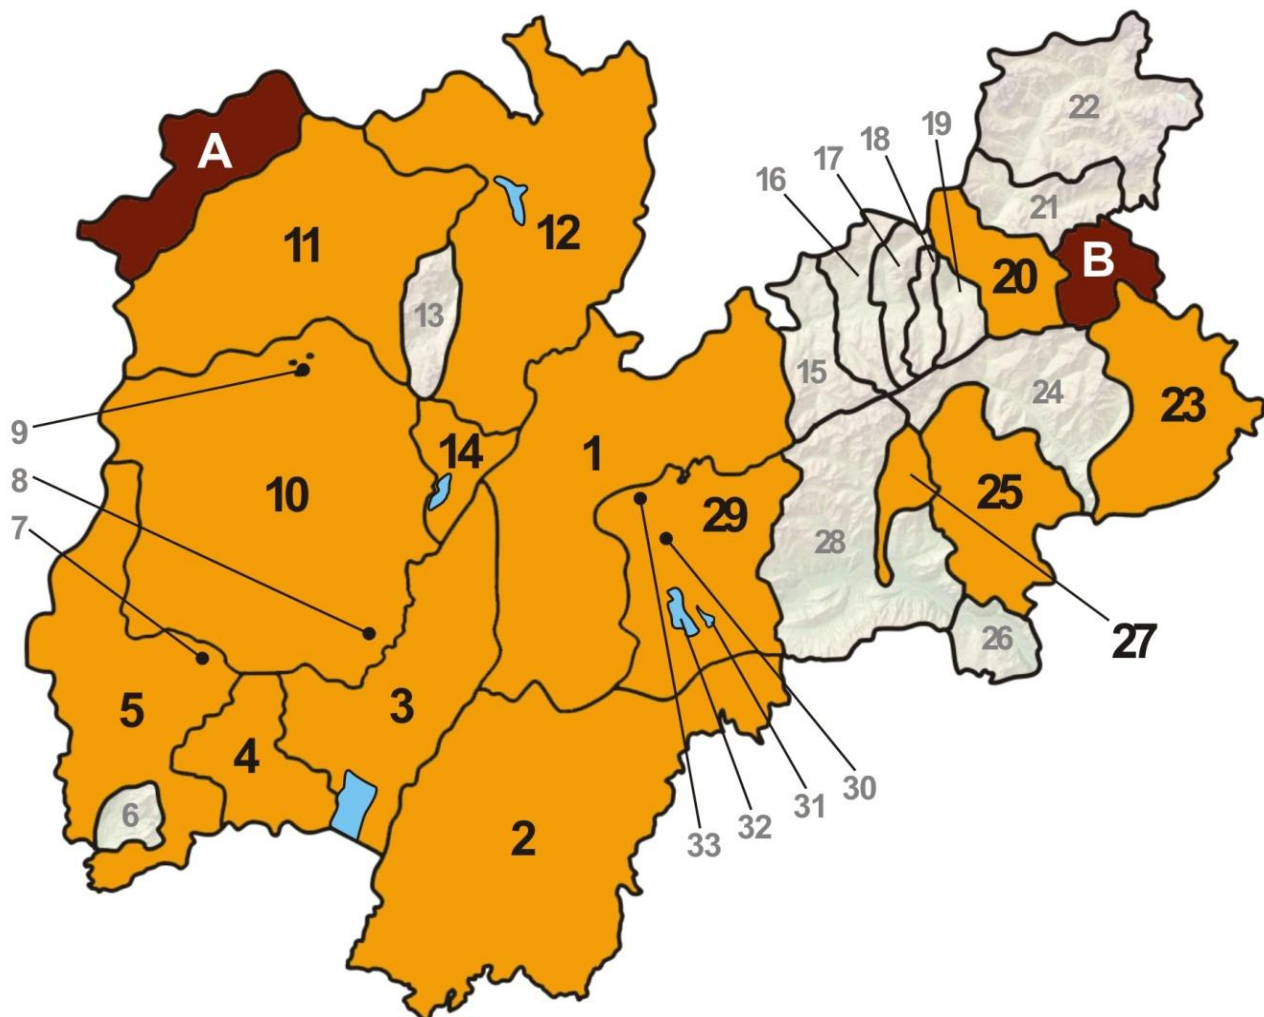

7 consecutive days: € 60,00

LOG CHART ON WHICH TO NOTE FISHING DETAILS

The fishing permit has a space set aside as a logbook in which the holder should note the dates and areas fished.

On collect of permits, holders undertake to return the information recorded in the logbook either by providing it on-line or by returning the permit.
